BRISBANE:  
BY AUTHORITY: ANTHONY JAMES CUMMING, GOVERNMENT PRINTER.

1913.

C.A. 72—1913.

FIFTY-THIRD REPORT OF THE GOVERNMENT STATISTICIAN ON  
THE VITAL STATISTICS OF QUEENSLAND.

TO THE UNDER SECRETARY, HOME DEPARTMENT, BRISBANE.

In presenting this, the fifty-third report on the Vital Statistics of the State of Queensland, I would point out that the matter dealt with embraces four distinctive subjects—namely, the number of the population, the births, marriages, and the deaths occurring; and it is my duty to draw attention to the effect that the natural occurrences of life bore not only to the population but to increases or decreases in ratio when compared with those of previous years. Firstly, dealing with the population:—

POPULATION.

A Census was taken in 1911, and in Appendix C several tables are given furnishing certain particulars. It is, however, disappointing that, after two and a-half years, full detailed tables respecting individual States are not yet available, as statistics of this nature become less valuable as time elapses between collection and publication. Summaries of a few of the principal tables are again quoted below:—

A.

Local Government.

	Males.	Females.	Persons.
Cities .. .. .	68,611	72,954	141,565
Towns .. .. .	44,879	45,639	90,518
Shires .. .. .	211,453	156,840	368,293
Not Incorporated .. .. .	1,267	302	1,569
Shipping .. .. .	3,296	572	3,868
Total .. .. .	329,506	276,307	605,813

According to data received in this office from officers of Local Authorities, the populations of incorporated bodies had at the end of 1912 increased to 643,915 as against 600,376 at the time of the Census, but too much reliance cannot be placed on local estimates.

Ages.

It is only by a Census that the ages of the population can be determined; the table below gives the figures:—

B.

Ages.	Males.	Females.	Persons.
Under 1 year .. .. .	8,329	7,967	16,296
1 year and under 5 years .. .. .	29,395	28,013	57,408
Total under 5 years .. .. .	37,724	35,980	73,704
5 years and under 15 years .. .. .	63,522	62,413	125,935
15 years and under 21 years .. .. .	39,532	37,160	76,692
Total under 21 years .. .. .	140,778	135,553	276,331
21 years and under 45 years .. .. .	121,711	97,277	218,988
45 years to 75 years and up .. .. .	65,035	42,293	107,328
Unspecified .. .. .	1,982	1,184	3,166
Total State .. .. .	329,506	276,307	605,813

Particulars also respecting birthplaces and religions of the people are given in the Appendix, to which those interested may refer.

Occupations.  
A summary of the table in the Appendix relating to this item is given below :—

C.

Class.	Males.	Females	Persons.
Class I.—Professional .. .. .	11,403	6,250	17,653
„ II.—Domestic .. .. .	6,354	20,216	26,570
„ III.—Commercial .. .. .	28,905	5,659	34,564
„ IV.—Transport and Communication ..	22,521	621	23,142
„ V.—Industrial .. .. .	56,949	11,313	68,262
„ VI.—Primary Producers .. .. .	98,721	3,183	101,904
„ VII.—Independent .. .. .	2,027	731	2,758
„ VIII.—Dependants .. .. .	98,359	227,711	326,070
Unspecified .. .. .	4,267	623	4,890
Total .. .. .	329,506	276,307	605,813

Apart from children, few males are independent of work of some nature; with females the position is somewhat different, but even with these at least 17 per cent. are either employees or engaged in business on their own account. The table in the Appendix gives fuller details than are tabulated in the above Statement.

An estimate of the population of the States is made annually.

A.

† Including allowance for unrecorded oversea departures.

— Excess of Departures.

The increase in the population was proportionately less than has been the case for several years, the total added being only 14,296 persons. Under ordinary circumstances Queensland has received in the first quarter of the year, in addition to the ordinary excess of immigration over emigration from Southern ports, a large number of returning excursionists. In 1912, however, the exodus of persons seeking work in other States in consequence of industrial trouble here was more than sufficient to counterbalance the ordinary trend, and instead of an increase of 11,500 persons, the additions to the population for that quarter only amounted to 3,000, and of these the great majority were from natural increase. The figures for the other quarters of the year were about normal, so that the shortage on anticipated increase may be wholly attributed to the extraordinary conditions of the early part of last year. The ratio of increase in each State for 1912 is given below:—

A a.

Queensland ... ..	2·30	Western Australia ... ..	4·06
New South Wales ... ..	4·78	Tasmania ... ..	1·93
Victoria ... ..	3·10	New Zealand ... ..	2·65
South Australia ... ..	2·85		

With the sole exception of the Island State of Tasmania, Queensland shows up unsatisfactorily when compared with the other States. The estimated population of each State and the proportion of each sex contained therein has been tabulated and printed.

A b.

State.	Estimated Population, 31st December, 1912.			Proportion of each sex in each 100 of the Population.		Proportion per cent. of the Population of each Federal State to the total Population of the Commonwealth.
	Males.	Females.	Persons.	Males.	Females.	
Queensland ... ..	344,139	292,286	636,425	54·07	45·93	13·44
New South Wales ... ..	934,846	842,688	1,777,534	52·59	47·41	37·55
Victoria ... ..	689,825	690,736	1,380,561	49·97	50·03	29·17
South Australia ... ..	218,613	211,477	430,090	50·83	49·17	9·09
Western Australia ... ..	174,056	132,073	306,129	56·86	43·14	6·47
Tasmania ... ..	101,561	95,644	197,205	51·50	48·50	4·17
Territories—						
Northern ... ..	2,854	621	3,475	82·13	17·87	0·07
Federal Capital ... ..	1,074	866	1,940	55·36	44·64	0·04
Total Commonwealth ... ..	2,466,968	2,266,391	4,733,359	52·12	47·88	100·00
New Zealand ... ..	553,212	499,415	1,052,627	52·56	47·44	
Total Australasia ... ..	3,020,180	2,765,806	5,785,986	52·20	47·80	

The population of Australia is now estimated at 4,733,359 persons. If Tasmania, which is to some extent isolated, be omitted, and the population of the continent alone considered, it will be found that there are only 1·54 persons to each square mile of Australia proper, or .0024 to each acre. The density of a few other countries according to the latest data available is quoted for comparison:—

United Kingdom ... ..	341·6 per sq. mile.
German Empire ... ..	290·4 „
Holland ... ..	406·4 „
Belgium ... ..	588·7 „
Egypt (proper) ... ..	868·9 „
Japan ... ..	316·9 „
United States ... ..	21·4 „
Canada ... ..	1·4 „
Argentine ... ..	4·6 „
Australia ... ..	1·5 „
New Zealand (except Maoris) ... ..	8·5 „

The available space for many millions in Australia is very evident from the above extract.

The sexual difference which for many years was very pronounced in favour of males in Queensland and Western Australia is now becoming much nearer normal. In the Northern Territory there are very few females, but the total population there is insufficient to affect the position of Austrasalia as

a whole. The State of Victoria is peculiar in possessing a preponderance of females. As illustrating how, as settlement increases, disparity in sex ceases, the following table has been prepared:—

						Ac.					
						Males to each 100 Persons.		Females to each 100 Persons.		Females to each 100 Males.	
1880	...	...	...	...	...	58·71	...	41·29	...	70·32	
1885	...	...	...	...	...	58·91	...	41·09	...	69·75	
1890	...	...	...	...	...	56·93	...	43·07	...	75·65	
1895	...	...	...	...	...	56·27	...	43·73	...	77·71	
1900	...	...	...	...	...	55·63	...	44·37	...	79·77	
1905	...	...	...	...	...	54·96	...	45·04	...	81·96	
1910	...	...	...	...	...	54·38	...	45·62	...	83·89	
1912	...	...	...	...	...	54·07	...	45·93	...	84·93	

So late as 1880 the females in the population only numbered 41.29 per cent—equality of sex would, of course, be represented by 50 per cent. At the present time the proportion is 45.93, or very nearly 46 per cent., a great difference in so limited a time. The next Statement is illustrative of the progress of the State since 1862.

Ad.

SHOWING EXCESS of BIRTHS over DEATHS and of IMMIGRATION over EMIGRATION by SEA and OVERLAND by RAILWAY.—  
RETURN from 1862 to 1912.

\* Figures adjusted after actual population ascertained by census.

† Including 1,000 males and unrecorded departures as allowed by Commonwealth Statistician.

§ Including allowances for unrecorded arrivals and departures.

— Excess of departures.

The above table shows in a condensed form the proportionate accessions to the population from excess of births over deaths and arrivals over departures respectively. In the earlier years of Queensland's history, the birth rate was abnormal as the number of adults in the population was relatively high, and during certain quinquenniums a considerable number of immigrants of marriageable ages were added to the population. The average birth rate during the periods specified in the table did not vary to the same extent as migration; but for those who desire to investigate the fluctuations year by year, full information will be found in the Appendix to this report.

Migration.

Details relating to each quarter are given in the following Statement:—

					B.

Totals ... ..	20,805	10,309	31,114	46,313	23,167	69,480	67,118	33,476	100,594

N.B.—This table does not include the allowances made in framing population estimates.

It has been found necessary to make certain adjustments when dealing with the statements of arrivals and departures to formulate population estimates. The above figures are as returned from various sources. The general experience of the Department has shown that there is generally a considerable exodus of persons South on pleasure bent during the last quarter of the year, followed by their return shortly after its close. In 1912, as explained earlier in the report, conditions were abnormal, and the total number of arrivals during the year was, because of this, much less than anticipated. Up to 1907 the nationality of persons arriving or departing was collected, but these particulars are not now supplied, but there is little doubt that there is a considerable interchange of passengers between this country and the East, whilst many inhabitants of New Guinea secure employment on the fisheries of Torres Straits within the boundaries of Queensland. But, although the number of Asiatics arriving and departing cannot be given, there is reason to believe that each succeeding year witnesses a reduction amongst persons of these races who are included in the population.

#### *Populations in Financial Divisions.*

The populations within these boundaries at the time of the Census was definitely determined; it is, however, impossible to trace the movements of individual members of the community year by year, and the following table is calculated on the presumptions that the proportions in each division are the same now as then.

#### C.

	Northern Division.	Central Division.	Southern Division.	Total State.
Population, Census 1911—				
Number—				
Males ... ..	70,749	40,941	217,816	329 506
Females ... ..	47,785	31,773	196,749	276,307
Persons ... ..	118,534	72,714	414,565	605,813
Proportion, per cent.—				
Males to total Males ... ..	21·47	12·43	66·10	100·00
Females to total Females ... ..	17·29	11·50	71·21	100·00
Estimated Population, 31st December, 1912—				
Males ... ..	73,891	42,759	227,489	344,139
Females ... ..	50,548	33,611	208,127	292,286
Total Persons ... ..	124,439	76,370	435,616	636,425

#### *Population—Metropolitan Area.*

Every care is taken to obtain information to render the estimate of the number of people within the 10-mile radius as accurate as possible.

#### D.

	Males.	Females.	Persons.
City of Brisbane ... ..	20,036	20,464	40,500
City of South Brisbane ... ..	15,249	16,551	31,800
Suburbs ... ..	35,617	37,105	72,722
Brisbane Metropolitan Area (Ten-mile Radius)	70,902	74,120	145,022

The city of Brisbane contains a number of large hotels and boarding houses besides hospitals and other residential establishments. There is not, however, as much opportunity for the erection of private houses as outside the boundaries—this is plainly shown if the figures in the above Statement are considered.

Federal Effective Population.

These figures having been determined at the Census must stand for five years and are repeated here for reference.

Da

State.	Effective Population 3rd April, 1911.	Quota.	Quotient and Remainder.		Number of Representatives.

HEALTH OF THE COMMUNITY.

With a high birth rate the mortality ratio also generally rules high, so the difference would be a more equitable basis on which to form conclusions.

The difference between birth and death rates in Australia was 17.48. Compared with this Queensland occupies a favourable position—viz., 18.74, being only exceeded by New South Wales, 19.07, and Tasmania, 19.80. The very low death rate of New Zealand does not advance that Dominion to an equivalent extent, the difference being only 17.61 per 1,000.

Passing on to other countries of the world, by which the health of the people in Queensland can, perhaps, be better gauged, and including the figures for this State to facilitate comparisons, the following figures are quoted:—

Queensland ... ..	18.7
England ... ..	11.6
Scotland ... ..	10.9
Ireland ... ..	6.2
Denmark ... ..	14.6
Sweden ... ..	12.8
France ... ..	1.8
Germany ... ..	13.9
Holland ... ..	17.2
Italy ... ..	13.3
Michigan, U.S. ... ..	5.0
Japan ... ..	12.2

The birth rates in Germany, Holland, and Italy are higher than in Queensland, but the larger death rates in those countries cancel that apparent advantage.

As Queensland contains an area equal to several European countries combined, it would, perhaps, be more equitable to show the position each division of the State occupies in this respect.

Total ... ..	9,585	9,173	18,758	29.70	4,305	2,616	6,921	10.96

It does not appear from this Statement that the warmer portions of the State are any more inimical to life than those situated in the more Southern districts.

### MARRIAGES.

In many cases persons come to the principal town of their district or meet at a common centre to be married, thus causing a larger proportion of marriages to be celebrated in the towns than the local population warrants.

#### E.

District.	Number.	District.	Number.
Brisbane ... ..	1,661	Kennedy ... ..	182
Toowoomba ... ..	368	Warwick ... ..	180
Ipswich ... ..	352	Cairns ... ..	163
Rockhampton ... ..	292	Bundaberg ... ..	132
Enoggera ... ..	262	Gympie ... ..	132
Townsville ... ..	240	Mackay ... ..	132
Maryborough ... ..	207		

In Brisbane alone 1,661 marriages, or 30 per cent. of the total, were celebrated. If the number in adjoining districts, but within the metropolitan area, is taken into consideration, the rate per hundred would amount to 37. The attraction that the principal centres have to people in general is therefore obvious.

The next table furnishes the marriage rate annually since particulars were available.

#### E a.

Year.	Number of Marriages per 1,000 mean Population.	Year.	Number of Marriages per 1,000 mean Population.	Year.	Number of Marriages per 1,000 mean Population.
1857	8.2	1876	7.6	1895	6.2
1858	9.4	1877	7.6	1896	6.1
1859	9.3	1878	7.0	1897	6.0
1860	10.8	1879	7.5	1898	6.0
1861	10.2	1880	7.0	1899	6.8
1862	14.4	1881	7.7	1900	6.9
1863	14.5	1882	8.6	1901	6.6
1864	14.0	1883	8.9	1902	6.3
1865	13.3	1884	8.9	1903	5.7
1866	11.6	1885	8.9	1904	5.9
1867	9.5	1886	8.3	1905	6.04
1868	8.3	1887	8.2	1906	6.73
1869	8.3	1888	8.7	1907	7.58
1870	7.8	1889	7.9	1908	7.22
1871	8.1	1890	7.8	1909	7.95
1872	8.7	1891	7.1	1910	8.05
1873	9.6	1892	6.7	1911	8.41
1874	8.6	1893	5.9	1912	8.91
1875	8.6	1894	5.7		

In the earlier years of the history of the State there were but few children in the community, and the rate was then, in consequence, very high. Since then the fluctuations shown in the table have followed closely the degree of prosperity of the people, or inversely, the period of financial trouble. The rate last year, 8.91, has not been exceeded since the year 1885, and it is beyond question that, broadly speaking, the year 1912 was one in which scarcity of employment was little experienced.

Queensland does not occupy the premier position with regard to marriages when compared with other States.

#### E b.

	1908.	1909.	1910.	1911.	1912.	Average of the Rates for the Quinquennial Period.
Queensland ... ..	7.22	7.95	8.05	8.41	8.91	8.11

Western Australia ...	7.50	7.27	7.46	8.44	8.37	7.81
Tasmania ... ..	7.87	8.13	7.98	7.76	7.86	7.92
Territories—						
Northern ... ..	*	*	*	*	7.14	
Federal Capital	†	†	†	†	2.95	
New Zealand ... ..	8.82	8.33	8.30	8.67	8.85	8.59

\* Included in South Australia.

† Included in New South Wales.

The ratios for New South Wales and South Australia were both higher during 1912 than in this State, whilst the extremely low rate of the first year of the quinquennium is sufficient to place this State only fourth when the average of five years is considered.

The next table extracted from the Census returns is continued in order that some idea as to the proportion of marriageable persons in each State may be readily seen.

E c.

				Males.		Females.		Persons.
Queensland	...	...	...	18·57	...	13·86	...	32·43
New South Wales	...	...	...	16·22	...	15·35	...	31·57
Victoria	...	...	...	15·30	...	18·75	...	34·05
South Australia	...	...	...	15·02	...	16·92	...	31·94
Western Australia	...	...	...	21·20	...	11·18	...	32·38
Tasmania	...	...	...	13·70	...	15·40	...	29·10

Practically two years have elapsed since these particulars were collected and, as the prime factor of increase to the population is that of excess of births over death, the ratio of marriageable persons in the community must have changed to some extent, but as the ages of the people can only be determined by Census the proportions above given cannot be adjusted on indefinite information.

MARRIAGES BY RELIGIOUS DENOMINATIONS.

The following table is of interest to students of ecclesiastical matters:—

F.

Denomination.	1903.	1904.	1905.	1906.	1907.	1908.	1909.	1910.	1911.	1912.	Total Ten Years.
Church of England	741	789	779	877	1,057	1,021	1,148	1,212	1,448	1,541	10,613
Roman Catholic Church	589	619	616	767	827	792	918	941	1,042	1,090	8,201
Presbyterian	441	444	427	487	577	554	621	683	712	802	5,748
Methodist	476	521	607	642	731	715	723	874	947	958	7,194
Baptist	158	157	158	192	191	201	245	256	227	289	2,074
Lutheran	130	139	136	142	132	144	156	191	160	169	1,499
Congregational	104	104	107	109	128	124	143	126	138	158	1,241
Salvation Army	9	21	15	17	23	35	36	32	34	42	264
Other Christian Sects	84	124	139	169	220	234	354	245	235	311	2,115
Hebrew	1	1	1	3	...	2	...	4	6	5	23
By Registrars and Marrying Justices	200	159	188	183	219	187	198	205	220	263	2,022
Totals	2,933	3,078	3,173	3,588	4,105	4,009	4,542	4,769	5,169	5,628	40,994

The Church of England is credited with the largest number of marriages, followed by the Roman Catholic, Methodist, and Presbyterian in the order named. There were many more marriages celebrated by secular authority last year than before. The proportion that each denomination might be expected to celebrate of adherents of their own religion can be gathered from the next Statement.

F a.

Proportion per cent. each Denomination to total—

	Population. Census, 11.	Marriages, 1912.
Church of England	35·11	27·38
Roman Catholic Church	22·63	19·37
Presbyterian Church	12·47	14·25
Methodist Church	9·89	17·02
Lutheran Church	4·00	3·00
Baptist Church	2·26	5·14
Congregational Church	1·72	2·81

It is probable that both the first two denominations mentioned above lose a certain number of marriages on account of their rule with regard to the place of celebration; a considerable number of persons consider personal convenience and expedition rather than that of sect, and from both of the causes mentioned there is but little doubt that other denominations are utilised for marriage celebrations, although the parties interested are not members of that church.

Birthplaces of Persons Married.

When there were existent practically no marriageable persons born in Queensland, this table was of considerable value, but as at the present time the large majority have been born within our boundaries, much of the utility has vanished. Full particulars are, however, published in the Appendix.

Ages of Husbands and Wives.

A summary of the detailed information contained in the Appendix tables of this report is printed below.

The information furnished by this table is interesting as showing the extent that young people are in a position to undertake the responsibilities of conducting an establishment on their own account, and though in certain densely populated localities in the Old World there has always been a large number of young people married, the conditions in this State are more dependent on individual prosperity. No less than 227 males under the age of 21 undertook to conduct a home of their own last year, a proportion of 4.03 per cent. as against 2.96 per cent. in 1911, and it shows that the earning power of quite young men in the community must be considerable to warrant so large a proportion entering the bonds of matrimony. With females the position is different, and with them marriage, to a large extent, depends on opportunity, and although the age at which women embrace married life varies, it is directly in proportion to the earning power of the males of the community. The following table illustrates this:—

				Ga.			
				All Husbands.	Bachelors.	All Wives.	Spinsters.
1881-1885, Average of Means ...				28·22	...	23·29	...
1886-1890, „ „ „ ...				27·52	...	23·23	...

1906-1910, „ „ „ ...				28·87	27·83	24·51	23·58
1911 Mean age ...				28·82	27·76	24·71	23·84
1912 „ „ ...				28·28	27·32	24·51	23·75

Ignoring remarriages, which frequently are the result of peculiar circumstances, the average age both of males and females is lower during general prosperity, and inversely suffers during periods of financial stress. The mean age of husbands was lower last year than for many years previous, and although the year 1912 was not quite such a prosperous one as the previous year or two, it was sufficiently so to maintain a high degree of comfort to the community in general, and the age of

persons first married was, in consequence, lower in the case of males than has been the case since data of this nature has been compiled. The ratio of first marriages to others both for males and females is seen in the next Statement:—

G b.

Second marriages do not present an important feature in this Statement, single men and women being between 94 and 95 per cent. of those married. There were a few individuals married whose ages were abnormal, such as a man of 70 years of age to a girl of 24; 71 to 42; 73 to 33; and 66 to young women of 26 and 29; all of which, probably, were the result of circumstances of a peculiar nature, the general tendency being to marry at about the same age, the females slightly younger than the males. Records of divorces are kept as closely as possible, each State advising the others of all decrees affecting parties whose marriage took place therein, and the results for the last year are shown below:—

G c.

	1903.	1904.	1905.	1906.	1907.	1908.	1909.	1910.	1911.	1912.
Dissolutions .. ...	8	13	4	12	12	11	16	20	27	15
Divorcees Remarried ... ..	12	9	8	9	18	10	15	26	22	24

Many years ago the illiteracy of the people was determined approximately by the proportion of persons unable to write when married, and although education has now become more general the table is published for comparative purposes.

I.

Number of Persons in each Year who signed Marriage Certificate with a Mark.					Proportion to each 100.				
					Marriages.		Persons Married.		
					Males.	Females.	Persons.		
Year.	Males.	Females.							
1875 ...	135	267	...	...	9·08	17·96	...	13·52	
1880 ...	90	187	...	...	5·82	12·09	...	8·95	
1885 ...	107	209	...	...	3·76	7·35	...	5·56	
1890 ...	94	115	...	...	2·94	3·60	...	3·27	
1895 ...	82	76	...	...	2·90	2·69	...	2·80	
1900 ...	58	88	...	...	1·72	2·61	...	2·17	
1905 ...	44	44	...	...	1·39	1·39	...	1·39	
1910 ...	38	51	...	...	0·80	1·07	...	0·93	
1912 ...	35	42	...	...	0·62	0·75	...	0·68	

Of the 77 persons married who could not write, 14 were coloured people. The balance were mostly persons who came to this State from Europe. The diminution in illiterate persons from decade to decade, increasing in later periods, is an emphatic illustration of the progress of education, not only in Queensland, where the advantages are exceptional, but throughout Europe generally.

BIRTHS.

The increase in the number of births recorded during 1912 was much in excess of that of any of the past ten years. With a population annually expanding, it is to be expected that each year should show a larger number of births. This has not always been the case, but ever since 1906 there

has been an increase. The record for 1912, however, shows an additional ratio per thousand of more than twice that of any other two years together shown in the table, with the exception of that for 1904.

J.

Increase or —Decrease on Previous Year.				Increase or —Decrease on Previous Year.			
Year.	Births.	Numerical.	Centesimal.	Year.	Births.	Numerical.	Centesimal.

The births recorded in Rockingham Division were the same as in the previous year, whilst, with the exception of the York Peninsula and the South-western Divisions, both sparsely settled country which as such would not affect the State as a whole, all other groups showed good increases. The proportion of female to male births appears to be increasing, and although there are some marked differences between the ratios recorded of 1912 and 1911 in certain localities, the total births in these groups are insufficient to warrant any conclusions being drawn as to rise or fall of births of either sex. The sexual proportion of births for ten years is quoted below.

J b.

Females born to every 100 males born.				Females born to every 100 males born.			
1903 ...	...	...	96·37	1908 ...	...	...	93·20
1904 ...	...	...	97·39	1909 ...	...	...	95·50
1905 ...	...	...	95·27	1910 ...	...	...	95·78
1906 ...	...	...	92·57	1911 ...	...	...	95·14
1907 ...	...	...	95·09	1912 ...	...	...	95·70

In the first year of life the deaths of male children is more than that of females, so that the balance of sex by the time maturity is reached is practically equal.

The birth rate of the State was very satisfactory.

K.

1860 ...	47·9	1880 ...	36·9	1900 ...	30·2
1865 ...	43·6	1885 ...	36·7	1905 ...	25·9

1875 ...	37·5	1895 ...	32·8	1912 ...	29·7

When Queensland imported annually large numbers of young adults the birth rate ruled abnormally high, especially when compared with countries where the population had reached a normal stage, which is only determinable by the length of existence. The birth rate of the community must depend on sexual equality or otherwise, and though every metropolitan district attracts encientees

for the special attention available at such a time and to be with relations, there has been a marked increase in the proportionate number of births in all the closer settlements in this State during 1912.

Whilst the rate for Queensland was a high one, it was exceeded in several other States.

\* Included in South Australia.

† Included in New South Wales.

It is impossible to determine with any degree of accuracy the effect that immigrants of a marriageable age have on the birth rate, but that a high birth rate has always been the corollary of large immigration is evident. The general prosperity of Australia has, therefore, been indirectly the cause of raising the rate considerably.

The above remarks bear the relation to the whole population; but the child-bearing age of the female population, presents the position from another aspect.

K b.

Census Year.		FEMALES 15 YEARS TO 45 YEARS OF AGE.		BIRTHS.		BIRTHS PER 1,000.		
		Married.	Unmarried.	Legitimate.	Illegitimate.	Legitimate Births to Married Females 15 years to 45 years of age.	Illegitimate Births to Unmarried Females 15 years to 45 years of age.	Total Births to all Females 15 years to 45 years of age.
1861	...	5,788		...	...	...	...	245·85
1871	...	15,502	6,830	5,074	131	327·31	19·18	233·07
1881	...	24,178	15,441	7,875	345	325·71	22·34	207·48
1891	...	44,537	34,607	14,031	684	315·04	19·76	185·93
1901	...	53,617	50,561	13,455	848	250·95	16·77	137·29
1911	...	64,461	69,976	15,903	1,088	246·71	15·55	126·39

This Statement can only be compiled from data obtained by a Census. The decline in the number of children born to fecund females has been very pronounced in Queensland, Census by Census, though not so much so as in most other countries, neither England, Scotland, Ireland, Scandinavia, France, or Belgium approaching the present ratio of this State.

Illegitimate Births.

The figures below show the recorded number of illegitimate births during each quarter of the year.

L.

				Males.		Females.		Persons.
First Quarter	...	...	...	128	...	128	...	256
Second Quarter	...	...	...	149	...	172	...	321
Third Quarter	...	...	...	152	...	149	...	301
Fourth Quarter	...	...	...	147	...	127	...	274
Total				576	...	576	...	1,152

There were more illegitimate births recorded in 1912 than in the previous year, but the proportion to all births was lower.

La.

1903	...	6·79	1907	...	7·31	1911	...	6·40
1904	...	6·90	1908	...	7·45	1912	...	6·14
1905	...	6·97	1909	...	6·99			
1906	...	7·68	1910	...	6·37			

The proportion in Queensland was considerably less than in 1911, but this State appears statistically to occupy an unenviable position in Australia.

L b.

		Per Cent. to Total Births.			Per Cent. to Total Births.
Queensland	...	6.14	Western Australia	...	4.39
New South Wales	...	5.64	Tasmania	...	4.78
Victoria	...	5.72	New Zealand	...	4.28
South Australia	...	4.71			

Whether the records are more accurately kept in Queensland than in other States, or the moral condition is lower, is open to question. Compared with most European countries this State occupies a better position than is found to exist there. It is also probable that the climatic conditions existing in Queensland permit of more outdoor intercourse than is found elsewhere, and the opportunity under the Legitimation Act to whitewash indiscretions “when times improve” leads to the opinion that records of illegitimacy will always rule high in this State.

The number of children legitimated under the Act specially passed for this purpose is shown below.

L c.

District.	Prior to 1903.		1903.		1904.		1905.		1906.		1907.		1908.		1909.		1910.		1911.		1912.		Total.

Country	40	39	10	11	19	15	23	17	26	30	64	52	42	48	57	63	57	35	58	49	56	45	452	404	856
Totals	74	57	14	13	27	20	36	25	55	63	101	78	73	81	94	85	78	60	86	71	78	71	...	...	...
	131		27		47		61		118		179		154		179		138		157		149		716	624	1,340

Legitimation is generally effected within a few months of the birth; therefore, taking a record of the last five years, it is found that 5,463 illegitimate births were recorded, and 777, or 14.22 per cent. were re-registered as the legitimate offspring of the parents.

Multiple Births.

L d.

				TWINS.		TRIPLETS.	
				Males.	Females.	Males.	Females.
First Quarter	...	...	...	42	38	...	...
Second Quarter	...	...	...	62	44	1	5
Third Quarter	...	...	...	39	33	...	...
Fourth Quarter	...	...	...	70	42	...	...
Total	...	...	...	213	157	1	5

There were 187 cases of this nature during 1912, of which two consisted of triplets; with twins males largely preponderated, but only one boy was born out of the six births of triplets.

DEATHS.

Although the mortality for both the last two years has been on the increase, the ratio is still a low one.

M.

YEAR.												DEATHS.					
												Total Number.			Proportion of Total Deaths per 1,000 of Mean Population.		
												Males.	Females.	Persons.	Males.	Females.	Persons.
1903	...	...	...	...	...	...	...	...	...	...	...	3,951	2,395	6,346	13.92	10.46	12.38

1910	...	...	...	...	...	...	...	...	...	...	...	3,595	2,150	5,745	11.13	7.99	9.70
1911	...	...	...	...	...	...	...	...	...	...	...	4,060	2,484	6,544	12.14	8.88	10.65
1912	...	...	...	...	...	...	...	...	...	...	...	4,305	2,616	6,921	12.56	9.05	10.96

The rate for both males and females was higher than that for several previous years, but this has not arisen from any abnormal cause. Compared with other States the position of Queensland is clearly shown in the following Statement:—

M a.

				Rate in 1908.	Rate in 1909.	Rate in 1910.	Rate in 1911.	Rate in 1912.	Average of the Rates for the Quin- quennial Period.
Queensland	...	...	...	10·23	9·68	9·70	10·65	10·96	10·24
New South Wales	...	...	...	10·13	9·75	9·71	10·39	10·87	10·17
Victoria	...	...	...	12·46	11·24	11·27	11·45	12·23	11·73
South Australia	...	...	...	9·84	9·37	9·72	9·82	10·28	9·81

Federal Capital	...	...	...	†	†	†	†	4·91	
New Zealand	...	...	...	9·57	9·22	9·71	9·39	8·87	9·35

\* Included in South Australia. † Included in New South Wales.

Whether the rate for 1912 is taken, or the mean for five years, this State does not compare unfavourably with the rest of Australia. The ratio for New Zealand, which is included in this Statement, is very low.

Although the population of the State is annually becoming more normal as to age condition, there is yet sufficient variation to cause a considerable divergence from expectations if the people generally averaged similar ages as Sweden.

M b.

Year.	Classes of Age.	% of Queens- land Population at each Age Period, Census 1911.	Estimated Mean Population.	Number of Deaths.	Coefficient %.	% of Swedish Population at each Age Period.	Queensland Index %.	
1912	{	Under 1 year	2·69	16,989	1,340	7·89	2·55	2·01
		1 to 20 years	40·97	258,757	912	0·35	39·80	1·40
		20 to 40	32·77	206,968	1,108	0·54	26·96	1·44
		40 to 60	17·77	112,231	1,467	1·31	19·23	2·51
		60 years and upwards	5·80	36,632	2,094	5·72	11·46	6·55
		Totals	100·00	631,577	6,921	1·10	100·00	13·91

This corrected death rate increases the figure for this State from 10.96 to 13.91, or nearly 3 per 1,000. This is approximately the same as last year.

Ages at Death.

The foregoing table is based on the results of tabulation under this heading. A summary is given below:—

N.

Quarter.	Under 1 Year.		1 and under 5 Years.		5 and under 20 Years.		20 and under 40 Years.		40 and under 60 Years.		60 Years and upwards.		Unspecified.		Males.	Females.	Persons.
	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.	M.	F.			
First Quarter	209	159	51	62	57	48	204	114	263	105	364	171	3	1	1,151	560	1,811

Third Quarter	159	125	55	49	52	52	157	107	234	128	376	196	2	...	1,035	657	1,692
Fourth Quarter	214	149	71	81	67	50	160	92	251	130	320	186	3	...	1,086	688	1,774
Total Males	769	...	237	...	229	...	690	...	996	...	1,375	...	9	...	4,305	...	...
Total Females	...	571	...	250	...	196	...	415	...	468	...	714	...	2	...	2,616	...
Total Persons	1,340		487		425		1,105		1,464		2,089		11		...	...	6,921
Percentage each Age Group to Total each to each	17·86	...	5·50	...	5·32	...	16·03	...	23·14	...	31·94	...	0·21	...	100·00		
	...	21·83	...	9·56	...	7·49	...	15·86	...	17·89	...	27·29	...	0·08	100·00		
	19·36		7·04		6·14		15·97		21·15		30·18		0·16		100·00		

Mortality of infants showed a considerable increase last year, but from infancy until 40 years of age the proportion of deaths to the total was not so great as in 1911, whilst above that age the percentage was slightly more. The proportions of death of each sex were:—

Percentage to Total Deaths of Each Sex.						Males.	Females,
Under 1 year	...	...	...	...	...	17.86	21.83
1 to 20 years	...	...	...	...	...	10.82	17.05
20 to 40 years	...	...	...	...	...	16.03	15.86
40 to 60 years	...	...	...	...	...	23.14	17.89
60 and upwards	...	...	...	...	...	31.94	27.29

True Infant Mortality.

This is the only calculation available showing the true proportion of deaths at a given age, as apart from infants, the number of the people of other ages can only be determined at Census periods.

O.

SHOWING TRUE INFANTILE MORTALITY.—RETURN FOR TEN YEARS.

1903.	1904.	1905.	1906.	1907.	1908.	1909.	1910.	1911.	1912.	Mean for the 10 years.
11.99	7.61	7.55	7.47	7.72	7.03	7.19	6.31	6.54	7.14	7.55

There was a marked increase in the mortality of the very young last year, but the mean ratio for ten years was low, being but 7.55 per 100 births, which compares more than favourably with the United Kingdom, 13; France, 14; Denmark, 12; Belgium, 15; Germany, 20; and some others even higher. The general improvement showing the mean mortality at the end of each decennium is quoted below:—

O a.

1875	...	...	12.46	1900	...	...	10.31
1880	...	...	12.98	1905	...	...	9.89
1885	...	...	13.64	1910	...	...	8.23
1890	...	...	12.65	1912	...	...	7.55
1895	...	...	11.07				

It is not only in comparison with European countries that the conditions respecting the preservation of infant life in Queensland are such as to justify legitimate gratification, but the ratios compare well with those of other States of Australasia, several of which are even lower than here.

O b.

\* Includes Charters Towers.

Whether the deaths of children under two years of age or those under five are considered the ratio of infants in the population must be also taken into account. The metropolis undoubtedly draws a large number of expectant mothers to its confines for treatment, and in both city and suburbs there are a number of establishments for maternity cases, apart from public hospitals; besides which there are numbers of women who come to relatives in the metropolis for the occasion. The mortality of children in mining centres has generally been unduly high, as instanced in Gympie, Ipswich, Mount Morgan, &c., but it is regrettable to find that the rate in Toowoomba, which should, from its situation command high hygienic conditions, does not present a favourable record.

The proportion of deaths to the estimated number living at each age is quoted in the next Statement.

Q.

Age Period.	Proportion of Popu- lation at each Age Period to Total Population, Census 1911.	Estimated Mean Popu- lation, 1912, at each Age Period on basis of Census Ratio.	Deaths, 1912.

Passing the ratios affecting those of tender years which have already received attention, it will be seen that from the age of five years to twenty-five the mortality is small, but thenceforward the proportion increases with each quinquennium. Full details of the mortality at each age for every year will be found in the Appendix, to which those interested are referred.

Birthplaces of Persons Dying.

R.

	Centesimal Proportion to Total Population borne by each Nationality, Census of 1911.		Number and Centesimal Proportion to Total Deaths borne by Deaths of each Nationality, Year 1912.

With the natural growth of Queensland-born population it follows that deaths of those born in the State must increase, and as these include practically all the infants the proportionate rate of deaths of Queenslanders must rule higher than those of European birth, the majority of whom arrive here either as young adults or in the prime of life.

Occupations of Persons Dying.

				5,680		5,530		5,745		6,544		6,921	

This table is not altogether satisfactory, inasmuch as the occupations followed by females prior to the illness resulting fatally is frequently omitted from returns. The following table illustrates this:—

R b.

Totals				329,506	276,307	100·00	100·00	4,305	2,616	100·00	100·00

Although there appears to be less objection to furnishing definite statements of the occupations of females than formerly, yet in a large number of cases, especially where illness has been tedious, the fact that a woman was earning her living previous to sickness is suppressed, besides which the omission of the word “duties” after “domestic”—a common occurrence—probably leads to errors in classification.

Metropolitan Deaths and Death Rate.

In all important centres there are large institutions for alleviation of sufferers, and in consequence the apparent mortality is generally higher than in rural districts. Queensland does not offer any exception to this rule.

R c.

	Estimated Mean Population.	Total Deaths.	Rate per 1,000.

§ Appearing for the first time in 1909.

The Brisbane Hospital, Children's Hospital, the Hospital for Chronic Diseases, and the Lady Lamington Hospital for Women are those, strictly speaking, reserved for the sick. These accounted for 630 deaths out of the total of 1,882 in the metropolitan area; or roughly one-third of all deaths took place in these four hospitals. This rate appears unduly large, but as no less than 12,990 patients received treatment within their walls, many of whom were received in extremis, the proportion to cases treated—namely, 26.34 per cent., is satisfactory.

The particulars respecting hospitals in the more important towns of the State are given below :—

3.

Where Situated.	Number of In-patients.	Number of In-patient Days.	Cost of Administration and Management for In-patients.	Cost of each In-patient per Day.	HOSPITAL STAFF.							
					PAID.						HONORARY.	
					Medical.		Nursing.		Other.		Medical.	
					M.	F.	M.	F.	M.	F.	M.	F.
Brisbane ...	4,664	93,390	£ 20,399	s. d. 4 4½	6	...	3	80	42	39	20	...
„ Children's ...	1,975	46,413	7,992	3 5½	2	...	...	47	2	20	9	1
Bundaberg ...	533	11,655	2,170	3 8½	1	...	1	10	1	3	3	...
Charters Towers ...	1,036	24,463	5,597	4 7	2	...	2	14	4	7	1	...
Ipswich ...	908	24,478	3,954	3 2¾	1	...	...	16	3	7	11	...
Mackay ...	1 018	19,710	5,178	5 3	1	...	2	19	2	6	3	...
Maryborough ...	644	11,542	2,492	4 3¾	1	...	...	10	3	6	5	...
Mount Morgan ...	802	14,882	4,088	5 6	1	...	2	13	4	6	...	...
Rockhampton ...	1,133	25,205	4,843	3 10	2	...	3	16	5	7	3	...
Toowoomba ...	1,252	29,419	6,799	4 7½	1	...	...	27	7	16	6	...
Townsville ...	1,282	28,580	7,259	5 1	1	...	3	21	5	8	5	...
Warwick ...	554	10,950	2,435	4 5¼	1	...	...	11	...	...	5	...

The cost per patient must depend largely on the average number under treatment daily, as the Medical and Nursing staff has always to be maintained. If the number of in-patients' days are compared with the cost per patient it will be seen that the average cost depends more on the number of patients generally under treatment than on the increased expenditure attendant on distance from the Capital.

Causes of Death.

It is only by those familiar with the Bertillon system of classification that the next table will be appreciated.

T.

When dealing with particular diseases later, attention will be called to the increase or decrease of certain causes of death. It is sufficient, therefore, to point out here that diseases of the digestive system, those of infancy and extreme age show increases, but otherwise there has been little marked difference in the proportions of each class for several years.

The causes of the more fatal diseases have been specially tabulated for a series of years.

Ta.

RETURN for FIVE YEARS showing the NUMBER of DEATHS from some of the PRINCIPAL CAUSES in ORDER of DEGREE of FATALITY in 1912, also their PROPORTION per 10,000 of the TOTAL DEATHS and per 100,000 of the MEAN POPULATION, respectively, for each YEAR 1908-1912.

The items are arranged in order of the degree of fatality as ascertained by the records of the latest year mentioned in the table, and though there has been some variation in certain years the general order is practically continuous. Certain diseases have, according to official records, been much more prominent of recent years, notably Cancer and Bright's Disease, but the more definite description given by Medical Men, probably renders information more distinctive rather than pointing to such an increase in these diseases as is shown statistically. The terms frequently formerly found on medical certificates, such as Stomach Disease, Liver Disease, etc., are not now often returned, although the term "heart failure," which has no meaning, is of common occurrence. The determination of Medical Authorities to charge organic diseases of the heart with being generally the cause of death in complicated cases has

resulted in an apparent increase in this cause. Diarrhoea and Enteritis of children are far too numerous, and, although the warm temperature of Queensland may be a conducive factor, much alleviation might be secured by stricter observance of hygienic methods. Tuberculosis is less pronounced, but, unfortunately, the number of children only born to die is most unsatisfactory. Few other causes specified in the table appear to warrant special remarks.

*Organic Diseases of Heart.*—In the majority of cases the mitral valve is affected, but, as before said, the increase in later years has for a factor the decision of Medical Authorities as to classification. In elderly people medical men, in returning the cause of death, very frequently state that, in addition to the ailment to treat which they have been consulted, the heart is diseased, and as a natural result the patient does not respond readily to treatment in consequence of the primary affection.

*Diarrhœa and Enteritis*.—Deaths from this cause mostly occur in very young or elderly people, much the larger proportion being those of infants. This disease is also more prevalent in the warmer weather, and there appears to be but little doubt that ignorance coupled with carelessness, especially with regard to hand-fed infants, is a pronounced factor in the high mortality rate of children.

*Cancer of all kinds.*—This cause of death is more frequently found recorded than in earlier years, and during the past year more deaths from this disease were reported than from tuberculosis. At the request of scientific bodies, particulars in detail are published.

## Tb.

RETURN showing the AGES of all PERSONS REGISTERED as DYING from CANCER of ALL KINDS during the Year 1912, together with the portion of the BODY affected thereby.

This is ordinarily found to exist amongst adults, though occasionally there are exceptions. Out of 399 persons whose deaths are attributed to this disease, only 31 were under 40 years of age. The stomach and associated organs in males, and the generative organs coupled with cancerous diseases of the breast in females, were the chief centres of affection. To what extent modern dietary and the indirect consequences attendant on intermittent exertion following ordinary occupations, now existent as the direct corollary of civilisation, have been indirectly the cause of increase, is an open question; but that Cancer is more prevalent now than, say, even 20 years ago is undoubted.

*Tuberculosis*.—Modern science has done much to alleviate this complaint. The general centre is in the lung, but other parts are often affected. Only a few years ago this disease was the most fatal of all, but it now occupies only the fourth place in the order of fatality. Pulmonary Tuberculosis is by far the most frequently recorded.

There appears to be an increasing number of Australian-born persons dying from this cause, but, as the percentage of native-born people naturally becomes higher each year, this accession is more apparent than real. The diminution in mortality of people of nationalities outside Australia is more satisfactory.

A table showing the mortality of persons dying from tuberculosis affecting organs other than the lung is also given.

Td.

DEATHS FROM TUBERCULAR DISEASES (OTHER THAN TUBERCULOSIS OF PULMONARY AND LARYNGEAL ORGANS).

RETURN showing BIRTHPLACES and DURATION of RESIDENCE of PERSONS who DIED from the above CAUSES, 1908-1912.

More than half the deaths tabulated in the above table are those of children, and the part of the body generally affected is the digestive system.

*Congenital Debility, &c.*—The number of deaths ascribed to this cause is not satisfactory. A large proportion of these are attributed to prematurity, and of these few survived birth more than a short time. Indiscretions on the part of the mother, either wilful or through ignorance, prior to delivery undoubtedly were contributing factors.

*Senile Debility.*—This designation shows an increasing number; as a cause of death the term is of little value, and only draws attention to the fact that the deceased had attained a considerable age, and the medical attendant could not, without an autopsy, actually define the exact cause of death. As showing the extreme ages reached by those dying during the year, the following table is inserted:—

Te.

CAUSES OF DEATH—OLD PERSONS 75 YEARS OF AGE AND UPWARDS.

Cause of Death.	AGE LAST BIRTHDAY.																												100 and upwards.		TOTAL DEATHS OVER 75 YEARS.																						
	75	76	77	78	79	80	81	82	83	84	85	86	87	88	89	90	91	92	93	94	95	96	97	98	99

Totals, Ages ... ..	59	33	60	20	54	27	62	28	48	13	35	23	25	23	21	17	23	9	17	13	20	16	14	11	7	8	5	6	6	7	5	4	2	3	2	3	1	1	5	1	1	...	2	1	...	1	1	...	1	...	475	269	744

No less than 744 persons out of the total of 6,921, or over 11 per cent., attained the age of 75; of these, the proportion of males to male and females to female deaths was 11.03 and 10.28 respectively, showing a larger proportion of males reaching that age than females.

*Bright's Disease (Chronic Nephritis).*—This appears to be annually increasing in prevalence, but the additional number of cases recorded may to some extent be a consequence of the more accurate diagnosis of later years.

#### MARINE REGISTRATIONS.

In order that there may be legal evidence of births or deaths occurring at sea outside the jurisdiction of any country, provision is made for registrations on the arrival of a vessel at her destination. These were less numerous in 1912 than in the previous year, and consisted of 11 deaths and 2 births. The ships on which these events occurred were—"Waipara," 3 deaths, 1 birth; "Perthshire," 3 deaths, 1 birth; "Roscommon," 4 deaths; "Bingera," 1 death.

#### ADDITIONS TO REGISTERS.

There were 36,948 more names added to the records of this Department last year; this was 3,056 more than in 1911. The total number in the Indices was 1,027,639 names, and as time passes and this list is ever increasing, each search demanded naturally entails more work.

#### REGISTRY OFFICE.

The amount received by Registrars and paid to the Consolidated Revenue is shown below:—

#### U.

RETURN showing the AMOUNTS received by the DISTRICT REGISTRARS in the STATE during the Years 1911 and 1912 respectively, and paid into the GENERAL REVENUE.

District Registrars at—	1911.	1912.	District Registrars at—	1911.	1912.
	£ s. d.	£ s. d.		£ s. d.	£ s. d.
Bowen ... ..	...	11 0 0	Red Hill ... ..	34 10 6	53 3 0
Brisbane ... ..	540 9 0	578 5 11	Rockhampton ... ..	63 14 6	65 12 0

Dalby ... ..	15 12 0	12 1 6	Toowoomba ... ..	58 15 0	59 6 6
Gympie ... ..	25 4 0	26 17 6	Townsville ... ..	56 19 0	52 18 6
Herberton ... ..	9 16 0	10 18 0	Warwick ... ..	19 7 6	20 13 6
Ipswich ... ..	50 12 6	54 0 9	Total all other Districts ...	128 13 6	116 14 6
Mackay ... ..	20 7 6	24 10 0			
Maryborough ... ..	44 11 9	43 13 0			
Mount Morgan ... ..	9 5 0	7 17 0			
			Total ... ..	£ 1,159 9 9	1,257 1 8

Nearly one-half of the total sum mentioned—namely, £1,257 1s. 8d.—was collected in the Central Office.

The gratuitous work performed by this office would, if charged for, almost make it self-supporting. Although it would entail unwarrantable time to accurately determine the exact value of services so rendered, an estimate, which may be considered fairly reliable, has been made for the Central Office. Particulars relating to Searches and Certified copies of entries only are detailed below:—

#### For Commonwealth—

Old Age Pensions ... ..	£250
Area Officers ... ..	7
Land Tax ... ..	3
Total for Commonwealth ... ..	£260

#### For State—

State Children (Orphanages) ... ..	£200
Factories and Shops ... ..	65
Public Instruction ... ..	25
Police ... ..	50
Chief Secretary (for Foreign Consuls) ... ..	35
Total for State ... ..	£375

This amounts to £635 for the Central Office only, but each district office is also called on to perform unpaid work. Besides the above, lists of the deaths of all persons over 21 years of age and of the marriages of all female adults have to be supplied to both State and Commonwealth Electoral Registrars.

The cost of maintaining Country Offices is scheduled in the next Statement:—

Bureau of Statistics, Brisbane, 19th August, 1913.

# GENERAL SCHEME OF CLASSIFICATION OF CAUSES OF DEATH.

## CLASS I.—General Diseases.

1. Typhoid Fever.
2. Typhus.
3. Recurrent Fever.
4. Intermittent Fever.
- 4a. Malarial Cachexia.
5. Small-pox.
6. Measles.
7. Scarlet Fever.
8. Whooping Cough.
9. Diphtheria.
- 9a. Croup.
10. Influenza.
11. Miliary Fever.
12. Asiatic Cholera.
13. Cholera Nostras.
14. Dysentery.
- 14a. Epidemic Dysentery.
15. Plague.
16. Yellow Fever.
17. Leprosy.
18. Erysipelas.
19. Other Epidemic Diseases.
- 19a. Dengue.
20. Purulent Infection and Septicæmia.
21. Glanders and Farcy.
22. Malignant Pustule and "Charbon."
23. Rabies.
24. Tetanus.
25. Trichinosis, etc.
26. Pellagra.
27. Beri Beri.
28. Tuberculosis of the Lungs.
29. Tuberculosis, Acute Miliary.
30. Tuberculosis of the Meninges.
31. Tuberculosis, Abdominal, etc.
32. Pott's Disease.
33. White Swellings.
34. Tuberculosis of other Organs.
35. General Tuberculosis.
36. Rachitis.
37. Syphilis.
38. Gonococcal Dis.
39. Cancer, etc., of the Mouth.
40. Cancer, etc., of the Stomach and Liver.
41. Cancer, etc., Peritonæum, Intestines, etc.
42. Cancer, etc., of the Female Genital Organs.
43. Cancer, etc., of the Breast.
44. Cancer, etc., of the Skin.
45. Cancer, etc., of other Organs.
46. Other Tumours (excl. F. Genital Organs).
47. Acute Articular Rheumatism.
48. Chronic Rheumatism and Gout.
49. Scurvy.
50. Diabetes.
51. Exophthalmic Goitre.
52. Addison's Disease.
53. Leucæmia.
54. Anæmia, Chlorosis.
- 54a. Filaria.
55. Other General Diseases.
56. Acute and Chronic Alcoholism.
57. Lead Poisoning.
58. Other Chr. Poisonings due to Occupations.
59. Other Chronic Poisonings.

## CLASS II.—Diseases of the Nervous System and of the Organs of Special Sense.

60. Encephalitis.
61. Simple Meningitis.
- 61a. Epidemic Cerebro-spinal Meningitis.
62. Progressive Locomotor Ataxia.
63. Other Diseases of the Spinal Cord.
64. Hæmorrhage of Brain, Apoplexy.
65. Softening of the Brain.
66. Paralysis without indicated cause.
67. General Paralysis.
68. Other Forms of Mental Alienation.
69. Epilepsy.
70. Eclampsia (non-puerperal).
71. Convulsions of Children under five.
72. Chorea.
73. Hysteria, Neuralgia, Neuritis.
74. Other Diseases of the Nervous System.
75. Diseases of the Eyes and Appendages.
76. Diseases of the Ear.

## CLASS III.—Diseases of the Circulatory System.

77. Pericarditis.
78. Acute Endocarditis.
79. Organic Diseases of the Heart.
80. Angina Pectoris.
81. Dis. of Arteries, Atheroma, Aneurism, etc.
82. Embolism and Thrombosis.
83. Dis. of Veins (Varices, Varicose Ulcers, etc.)
84. Diseases of the Lymphatic System.
85. Hæmorrhage.

## CLASS IV.—Diseases of the Respiratory System.

86. Diseases of the Nasal Fossæ.
87. Diseases of the Larynx.
88. Diseases of the Thyroid Body.
89. Acute Bronchitis.
90. Chronic Bronchitis.
91. Broncho-pneumonia.
92. Pneumonia.
93. Pleurisy.
94. Congestion of Lungs and Pul. Apoplexy.
95. Gangrene of the Lungs.
96. Asthma.
97. Pulmonary Emphysema.
- 97a. Miners' Phthisis.
98. Other Diseases of the Respiratory System.

## CLASS V.—Diseases of the Digestive System.

99. Dis. of Mouth and associated organs.
100. Diseases of the Pharynx.
101. Diseases of the Oesophagus.
102. Ulcer of the Stomach.
103. Other Dis. of Stomach (Cancer excluded).
104. Diarrhoea and Enteritis (under two years).
105. Diarrhoea and Enteritis (over two years).
106. Ankylostomiasis.
107. Intestinal Parasites.
- 107a. Sprue.
108. Appendicitis.
109. Hernia, Intestinal Obstruction.
110. Other Diseases of the Intestines.
111. Icterus Gravis.
112. Hydatid Tumours of the Liver.
113. Cirrhosis of the Liver.
114. Biliary Calculi.
115. Other Diseases of the Liver.
116. Diseases of the Spleen.
117. Simple Peritonitis (non-puerperal).
118. Other Diseases of the Digestive System.

## CLASS VI.—Diseases of the Genito-Urinary System and Adnexa.

119. Acute Nephritis.
120. Bright's Disease.
121. Chyluria.
122. Other Diseases of Kidney and Adnexa.
123. Calculi of Urinary System.
124. Diseases of the Bladder.
125. Other Dis. Urethra, Urinary Abscess, etc.
126. Diseases of the Prostate.
127. Non-venereal Dis. of Male Genital Organs.
128. Uterine Hæmorrhage (non-puerperal).
129. Uterine Tumour (non-cancerous).
130. Metritis and Other Diseases of the Uterus.
131. Cysts and other Ovarian Tumours.
132. Other Dis. of Female Genital Organs.
133. Non-puer. Dis. of Breast (Cancer excep.)

## CLASS VII.—Puerperal Condition.

134. Accidents of Pregnancy.
135. Puerperal Hæmorrhage.
136. Other Accidents of Childbirth.
137. Puerperal Septicæmia.
138. Puerperal Albuminuria and Eclampsia.
139. Puerperal Phlegmasia Alba Dolens.
140. Other Puerperal Accidents, Sudden Death.
141. Puerperal Diseases of the Breast.

## CLASS VIII.—Diseases of the Skin and of the Cellular Tissue.

142. Gangrene.
143. Carbuncle.
144. Phlegmon, Acute Abscess.
145. Other Diseases of the Skin and Adnexa.

## CLASS IX.—Diseases of the Organs of Locomotion.

146. Non-tuberculous Diseases of the Bones.
147. Arthritis and other Dis. of Joints.
148. Amputation.
149. Other Dis. of Organs of Locomotion.

## CLASS X.—Malformations.

150. Congenital Malfor. (excl. of Stillborn).

## CLASS XI.—Infancy.

151. Congenital Debility, Icterus, and Scleroma.
152. Other Dis. Pec. to Infancy (un. 3 mths).
153. Want of Care (Infants).

## CLASS XII.—Old Age.

154. Senile Debility.

## CLASS XIII.—Violence.

155. Suicide by Poison.
156. Suicide by Asphyxia.
157. Suicide by Hanging or Strangulation.
158. Suicide by Drowning.
159. Suicide by Firearms.
160. Suicide by Cutting Instruments.
161. Suicide by Precipitation from a Height.
162. Suicide by Crushing.
163. Other Suicides.
164. Poison by Food.
165. Vene. Creatures and other Acute Poisons.
166. Incendiarism.
167. Burns.
168. Noxious Gases.
169. Drowning.
170. Firearms.
171. Cuts and Stabs.
172. Falls.
173. Mines and Quarries.
174. Machinery.
175. Vehicles.
- 175a. Railway and Tramways.
176. Animals.
177. Starvation.
178. Cold.
179. Sunstroke.
180. Lightning.
181. Other Electric.
- 181a. Timber Felling, Logging, etc.
182. Murder by Firearms.
183. Murder by Cuts.
184. Murder, Other.
185. Fractures, etc.
186. Other Violence.

## CLASS XIV. Ill-defined Diseases.

187. Organic Lesion (not Defined).
188. Sudden Death.
189. Unspecified or Ill-defined Causes of Death.

INDEX TO TABLES.

Head.	Particulars given in Table.	Table.	Page.
APPENDIX A.			
Population ... ..	Summary of Vital Statistics from 1856 ... ..	...	1 to 5
Population ... ..	Estimated for 1911 and 1912, Estimated Mean for the year ... ..	I.	6
Births ... ..	Number Registered during each Quarter ... ..	II.	6
Metropolitan Area ...	Mean Population, Births, Deaths, and Marriages for Ten years ...	III.	7
Marriages ... ..	Number Registered during each Quarter ... ..	IV.	7
" ... ..	Number Registered, showing the Denominations ... ..	V.	8
" ... ..	Showing the Birthplace or Race of the Persons Married ... ..	VI.	9
" ... ..	" various Ages of the Persons Married ... ..	VII.	10 to 11
Deaths in the State	Showing the Number Registered during each Month of the Year in Age Groups ... ..	VIII.	12
" ... ..	" Number Registered during each Month of the Year according to Districts ... ..	IX.	13
" ... ..	" Number of Children, Male and Female, under Five years ... ..	X.	14
" ... ..	" Ages of Persons since 1860, also Mean Age at Death and Mean Age living ... ..	XI.	15
" ... ..	" Birthplace, &c., of Persons whose Deaths were Registered ... ..	XII.	16
" ... ..	" Occupations of Persons whose Deaths were Registered ... ..	XIII.	17
" ... ..	" Causes of Deaths, arranged in order of Degree of Fatality ... ..	XIV.	18 to 19
" ... ..	" Causes of Deaths of Males at different periods of life, Registered during the year ... ..	XV.	20 to 22
" ... ..	" Causes of Deaths of Females at different periods of life, Registered during the year ... ..	XVI.	23 to 25
" ... ..	" Causes of Deaths of Persons at different periods of life, Registered during the year ... ..	XVII.	26 to 28
" ... ..	" Causes of Deaths, Males and Females, Number Registered each Month ... ..	XVIII.	29 to 31
" ... ..	" Causes of Deaths of Males, Females, and Persons in the several Groups of Registry Districts ... ..	XIX.	32 to 37
Deaths in Brisbane ...	" Causes of Deaths, Males, at different periods of life, Registered within Metropolitan Area ... ..	XX.	38 to 40
" ... ..	" Causes of Deaths, Females, at different periods of life, Registered within Metropolitan Area ... ..	XXI.	41 to 43
" ... ..	" Causes of Deaths, Persons, at different periods of life, Registered within Metropolitan Area ... ..	XXII.	44 to 46
" ... ..	" Causes of Deaths, Males and Females, Registered during each Month of the Year, within Metropolitan Area ...	XXIII.	47 to 49
APPENDIX B.			
	District Registrars, List of, for 1912... ..	..	50
APPENDIX C.			
Census of Queensland	Showing the Population of Cities, Towns, and Shires, as returned at Census of 1911 ... ..	I.	50 to 51
" ... ..	" Ages of the Population, as returned at Census of 1911 ... ..	II.	52
" ... ..	" Birth places of the Population of Queensland, as returned at Census of 1911 ... ..	III.	52
" ... ..	" Religions of the Population of Queensland, as returned at Census of 1911 ... ..	IV.	53
" ... ..	" Occupations of Population of Queensland, as returned at Census of 1911 ... ..	V.	54

A P P E N D I X A.

SYNOPSIS OF THE VITAL STATISTICS OF QUEENSLAND FROM THE YEAR 1856 TO 1912 INCLUSIVE.

POPULATION ON THE 31ST DECEMBER OF EACH YEAR, ITS INCREASE NUMERICAL AND CENTESIMAL, AND PROPORTION OF THE SEXES.

YEAR.	POPULATION ON THE 31ST DECEMBER.			NUMERICAL INCREASE OR — DECREASE IN POPULATION OF 31ST DECEMBER.			CENTESIMAL RATIO OF INCREASE OR — DECREASE IN POPULATION OF 31ST DECEMBER.			Proportion of Females to each 100 Males in total Population of each year.	ADDITIONS TO POPULATION OF 31ST DECEMBER OF EACH YEAR, ARISING FROM EXCESS OF BIRTHS OVER DEATHS.			Centesimal Increase to Population of 31st December of each year from Excess of Births over Deaths.

SYNOPSIS OF THE VITAL STATISTICS OF QUEENSLAND FROM THE YEAR 1856 TO 1912  
(INCLUSIVE)—*continued*.

YEAR.	IMMIGRATION AND EMIGRATION.						BIRTHS, THEIR PROPORTION TO MEAN POPULATION OF EACH YEAR, AND THEIR NUMERICAL AND CENTESIMAL INCREASE.													
	ARRIVALS BY SEA AND OVERLAND BY RAILWAY DURING EACH YEAR AS RECORDED.			DEPARTURES BY SEA AND OVERLAND BY RAILWAY DURING EACH YEAR AS RECORDED.			Male Births registered each year.		Female Births registered each year.		Total Births registered each year.		Numerical Increase or — Decrease in Births of each year.		Centesimal Increase or — Decrease in Births of each year.		Centesimal Proportion total Births bear to Mean Population of each year.		Number of Female Births to each 100 Male Births.	
	Males.	Females.	Persons.	Males.	Females.	Persons.

\* Excess of Arrivals over Departures; Complete figures not available.

† Excess of Departures.

## APPENDIX TO GOVERNMENT STATISTICIAN'S REPORT

## SYNOPSIS OF THE VITAL STATISTICS OF QUEENSLAND FROM THE YEAR 1866 TO 1912 INCLUSIVE—continued.

YEAR.	DEATHS, THEIR PROPORTION TO MEAN POPULATION, THEIR ANNUAL, NUMERICAL, AND CENTESIMAL INCREASE.					INFANTILE MORTALITY, AND ITS PROPORTION TO MEAN POPULATION, ITS INCREASE OR DECREASE, NUMERICAL AND CENTESIMAL.										
	Male Deaths registered each year.	Female Deaths registered each year.	Total Deaths registered each year.	Numerical Increase or —Decrease in Deaths of each year.	Centesimal Increase or —Decrease in Deaths of each year.	Centesimal Proportion total Deaths bear to Mean Population of each year.	Number of Female Deaths to each 100 Male Deaths.	Number of Deaths under 1 year.	Below 2 years of age.	2 and under 5 years of age.	Total below 5 years of age.	Numerical Increase or —Decrease in Deaths of Children below 5 years of age.	Centesimal Increase or —Decrease in Deaths of Children below 5 years of age.	Centesimal Proportion Deaths of Children below 5 years of age bear to the total Deaths of each year.	Centesimal Proportion Deaths of Children below 5 years of age bear to Mean Population of each year.	Centesimal Proportion Deaths of Children under 1 year to Total Births, showing true infantile mortality.

Table No. XIII.

SHOWING the OCCUPATIONS of 6,921 PERSONS who DIED in QUEENSLAND during the YEAR 1912.

Table No. XIV.

CAUSES of DEATHS in QUEENSLAND during the YEAR 1912, arranged in ORDER of DEGREE of FATALITY.

Cause of Death.	Number of Deaths, Male and Female, Registered from each Cause.		Total Deaths from each Cause in 1912.	Total Deaths from each Cause in 1911.	Increase or — Decrease in 1912.
	Males.	Females.			
Organic Diseases of the Heart .. .. .	487	262	749	709	40
Diarrhoea and Enteritis (under and over 2 years) ..	351	295	646	463	183
Cancer (all kinds) .. .. .	224	175	399	398	1
Tuberculosis (all parts) .. .. .	264	127	391	414	— 23
Congenital Debility, Icterus and Scleroma .. .. .	229	146	375	318	57
Senile Debility .. .. .	229	123	352	279	73
Bright's Disease .. .. .	158	106	264	232	32
Pneumonia .. .. .	130	82	212	229	— 17
Hæmorrhage of Brain, Apoplexy .. .. .	113	98	211	187	24
Bronchitis (Acute and Chronic) .. .. .	87	74	161	181	— 20
Typhoid Fever .. .. .	93	50	143	95	48
Drowning (Accident) .. .. .	101	18	119	212	— 93
Convulsions of Children (under 5) .. .. .	58	42	100	84	16
Congenital Malformations (exclusive of stillborn) ..	48	50	98	92	6
Diphtheria .. .. .	44	51	95	87	8
Diseases of Arteries, Atheroma, Aneurism, etc. ..	77	18	95	97	— 2
Other Diseases Peculiar to Infancy (under 3 months) ..	51	44	95	56	39
Simple Meningitis .. .. .	42	29	71	66	5
Burns (Accident) .. .. .	23	44	67	54	13
Broncho-pneumonia .. .. .	42	22	64	82	— 18
Animals (Accident) .. .. .	57	5	62	43	19
Paralysis without indicated cause .. .. .	42	16	58	48	10
Other Diseases of Stomach (Cancer excluded) .. ..	33	23	56	50	6
Acute Endocarditis .. .. .	34	21	55	47	8
Measles .. .. .	27	27	54	39	15
Cirrhosis of the Liver .. .. .	39	15	54	58	— 4
Falls (Accident) .. .. .	35	17	52	51	1
Influenza .. .. .	24	27	51	75	— 24
Hernia, Intestinal Obstruction .. .. .	28	22	50	41	9
Whooping Cough .. .. .	23	26	49	52	— 3
Acute and Chronic Alcoholism .. .. .	38	10	48	31	17
Vehicles (Accident) .. .. .	36	11	47	47	..
Dysentery .. .. .	28	18	46	69	— 23
Appendicitis .. .. .	32	14	46	40	6
Acute Nephritis .. .. .	22	22	44	45	— 1
Beri Beri .. .. .	42	1	43	35	8
Anæmia Chlorosis .. .. .	19	23	42	34	8
Diabetes .. .. .	17	23	40	33	7
Tetanus .. .. .	31	8	39	41	— 2
Syphilis .. .. .	28	11	39	26	13
Epilepsy .. .. .	25	13	38	32	6
Embolism and Thrombosis .. .. .	22	14	36	35	1
Other Diseases of the Nervous System .. .. .	23	9	32	45	— 13
Suicide by Firearms .. .. .	32	..	32	33	— 1
Mines and Quarries (Accident) .. .. .	31	..	31	16	15
Puerperal Septicæmia .. .. .	..	30	30	24	6
Other Diseases of Kidneys and Adnexa .. .. .	20	9	29	14	15
Diseases of the Prostate .. .. .	29	..	29	26	3
Railways and Tramways (Accident) .. .. .	26	3	29	29	..
Sunstroke (Accident) .. .. .	23	6	29	32	— 3
Asthma .. .. .	20	7	27	30	— 3
Acute Articular Rheumatism .. .. .	15	10	25	32	— 7
Miner's Phthisis .. .. .	24	1	25	21	4
Suicide by Poison .. .. .	19	6	25	17	8
Other Violence (Accident) .. .. .	22	2	24	38	— 14
Timber Felling, Logging, etc. (Accident) .. .. .	23	..	23	10	13
Softening of the Brain .. .. .	11	11	22	28	— 6
Other Diseases of the Liver .. .. .	14	8	22	34	— 12
Purulent Infection and Septicæmia .. .. .	8	13	21	21	..
Hysteria, Neuralgia, and Neuritis .. .. .	11	9	20	5	15
Pleurisy .. .. .	15	5	20	21	— 1
Other Diseases of the Intestines .. .. .	12	8	20	17	3
Diseases of the Bladder .. .. .	17	3	20	28	— 8
Suicide by Drowning .. .. .	18	2	20	16	4
Congestion of Lungs and Pulmonary Apoplexy .. ..	9	10	19	17	2
Puerperal Albuminuria and Eclampsia .. .. .	..	19	19	13	6
Starvation (Accident) .. .. .	19	..	19	8	11
Suicide by Cutting Instruments .. .. .	18	..	18	9	9
Chronic Rheumatism and Gout .. .. .	11	6	17	18	— 1
Accidents of Pregnancy .. .. .	..	17	17	22	— 5
Malarial Cachexia .. .. .	13	3	16	13	3
Ulcer of the Stomach .. .. .	9	7	16	15	1
Simple Peritonitis (non-puerperal) .. .. .	10	6	16	18	— 2
Suicide by Hanging or Strangulation .. .. .	14	2	16	12	4
Other Diseases of the Spinal Cord .. .. .	11	4	15	20	— 5
Other Diseases of the Digestive System .. .. .	3	12	15	3	12
Firearms (Accident) .. .. .	15	..	15	12	3
Gangrene .. .. .	9	5	14	10	4
Other General Diseases .. .. .	8	5	13	11	2
Erysipelas .. .. .	8	4	12	2	10
General Paralysis .. .. .	10	2	12	16	— 4
